# TORY AND YOU

As we continue our growth and changes with the merchandise that we manufacture, we must also make changes in order to serve you more proficiently. Following are our Terms and Policies that we ask you to read.

- **TERMS:** Our terms are 2% 10 - Net 30 to approved dealers with accounts in good standing. This means that you can take a 2% discount from the subtotal if paid within 10 days. If you do not pay in that 10 day time, the complete balance is due in 30 days. Do not include the shipping when figuring the 2% discount.
- **FIRST TIME ORDERS** will be shipped C.O.D., Certified Check or Credit Card unless other arrangements are made with the credit manager.
- We accept **MasterCard, Visa, Discover, and AMEX (AMEX pending approval).**
- A **\$10.00 SERVICE CHARGE** will be added to all orders under \$50.00.
- There will be a **\$25.00 Service Charge on ALL RETURNED CHECKS.**
- We reserve the right to refuse shipments to accounts with a **PAST DUE BALANCE** of 30 days or more.
- All past due accounts are subject to finance charges.
- An account **TURNED OVER FOR COLLECTION** will be liable for all collection fees and court costs that are involved in settling the account.
- Please **INSPECT ALL ORDERS ON RECEIVING THEM - ANY SHORTAGES OR DAMAGES MUST BE REPORTED WITHIN 48 HOURS.**
- No **RETURNS** will be accepted unless you phone and request a return authorization. Tory will not accept any returned items that are special or custom orders unless defective.
- A **10% RESTOCKING FEE** will be charged on any returned, undamaged merchandise.
- **ALL SILVER TRIM PIECES** are considered to be Special Orders and will be subject to a **20% RESTOCKING FEE.**

**ORDER DESK: 800-326-9438 | FAX: 570-321-5426**  
**E-Mail: [toryleather@comcast.net](mailto:toryleather@comcast.net)**

- Our **HOURS** are Monday through Thursday from 8:00 am until 4:30 pm Eastern Time. Friday from 8:00 am until 12:00 noon.
- Our website is **[www.toryleather.com](http://www.toryleather.com)**. A PDF version is available, as well as a full high resolution listing. Please call for your dealer access code.
- For those whose hours do not correspond with ours please use the telephone answering machine, the fax machine, or send your order by email.
- **ORDERING BY PHONE:** We have a toll free number and our answering machine is on 24 hours a day for placing small orders or requesting that we call you. Please call 800-326-9438
- **ORDERING BY FAX:** Our fax machine is on 24 hours a day. Please fax 570-321-5426
- **ORDERING BY EMAIL:** Our email address is [toryleather@comcast.net](mailto:toryleather@comcast.net)
- **ORDERS** are generally shipped the day after they are placed and are shipped by FedEx unless otherwise designated.
- Our policy on shipping **BACK ORDERS** is as follows: We will keep a record of all back ordered items unless requested not to by the customer. When you place an order, if there are back ordered items from a previous order, they will be added to the order. If you do not have an order in-house and the back ordered items come in, we strive to call and give you the opportunity to add any additional merchandise that you need.

This has been a popular choice for many mounted units throughout the country with our Combo Bridles for the basis of their tack.

# ALL WEATHER TRAIL TACK

Tory Leather has always sought to offer our customers a wide variety of options for their horse equipment. We created this line to appeal to the Pleasure Trail, Competitive Trail, and Endurance Riding Customer who needs an ALL WEATHER option for their tack.

*There are many rubber covered nylon synthetics being used with various names but we have found one that we like because it has enough substance to hold its shape, is durable, cleans easily, feels good to hold and is a good brown color. PLUS ....many of the other manufacturers use Nickel Hardware but we feel it is worth it to use Brass Hardware so that it will keep looking good for a long time.*

**521 H HORSE SIZE BROWN "ALL WEATHER" HUNT BREAST PLATE**

### A Note about our Harness Leather.

What makes our Harness Leather different? Being located just two hours East of one of only a few tanneries left in the USA has its perks. We literally were "hands on" in our approach to develop a formula for our Harness Leather that would result in something beautiful, strong, and have the feel in your hand that matters the most to the people using it.

We won't bore you with the details, but what you need to know is that our Harness Leather is hot stuffed in drums to insure that all the necessary oils and tallows reach the core of the leather, we then hot dip a top coat to add to the feel and temper of the leather. After being made into a finished product, we apply another round of tallows and treatments for the ultimate value in harness leather.

Thanks for being a customer and please, as always, let us know what we can do for you.

## 9' Long "Super Weight" Split Reins

Made from Harness Leather that is Drum Stuffed, Custom Dipped and Hand Dressed to create the Perfect Blend of Feel and Durability.

1/4" Thick At Bit End And Finishing At 3/8" At The Tail Which Gives The Extra Thickness And Weight That Your Customers Want.

225 5/8" x 9' LONG "SUPER WEIGHT" SPLIT WESTERN REIN WITH WATER STRAP BIT ENDS.

We have been asked for these long reins and are able to make them when we can find the leather that gives us the length and weight that it takes. Hides that are this heavy and of this length are in high demand and low supply, therefore Tory can only guarantee delivery on current stock but will take reservations on future cuttings.

### EVERY REIN HAS A REASON

*Ollie, the daughter of one of our long time employees liked the feel of our 743 cotton snaffle reins but wanted a continuous rein for trail riding and timed events.*

*Fully intact, or continuous reins are ones that are not split but make it possible for the rider to quickly pick the reins up if dropped. We made this rein because we saw the potential for many uses.*

## Side Pulls

The Single and Double Nose Side Pulls are designed for starting a young horse. The contact on the nose gives control and the rein rings enable you to teach the horse to give his head.

**880 HARNESS LEATHER SINGLE NOSE SIDE PULL**

**881 HARNESS LEATHER DOUBLE NOSE SIDE PULL**

The Side Pull with the bit is the next step in Progressive Training following the nose band Side Pulls. This teaches the horse to carry a bit while keeping to the same Side Pull action that the horse is used to. The bit is a Black Iron Snaffle Bit that is designed to keep the mouth moist and has a pleasant taste. The Black Iron is supposed to rust but still keeps its taste.

**976 HARNESS LEATHER SINGLE NOSE SIDE PULL WITH BIT**

## German Martingale

The German Martingale is a popular training device because it allows the rein pressure to be direct to the rider's hands so that when it is removed there is not a drastic change of pressure for the horse as in the case of draw reins and conventional martingales.

It is different from other devices because the rider doesn't pull the horse's head into position but allows the horse to adjust his head by the position that is set by the ring that the running fork is attached to.

**EASY TO REMOVE BEFORE ENTERING THE RING**

## Leather And Rope Chambon

### 1300 H HAVANA LEATHER HORSE SIZE CHAMBON WITH ROUND BROWN ROPE

This is a training aid that gives great control without rein and bit pressure. It is used to set the head and increase flexing of the neck and poll. Adjusting the length creates more or less pressure on the nose and flexion at the poll. The Crown Strap is a flat, comfortable 1-1/2" wide strap with buckled straps to attach it easily to a bridle, a center overlay with rings for the reins with the leather backing so they don't rub the horse. The Girth Strap is 3/4" wide to slip the girth through with a tongue buckle and lots of holes for adjusting to a wide range of horse sizes. The Dark Brown round rope slides easily through the rings and bit and has leather tabs at bit ends and is stitched to the girth strap.

***BOTH OF THESE TRAINING AIDS ARE RECOMMENDED AS A GROUND TRAINING DEVICE. EXTREME CAUTION SHOULD BE TAKEN IF BEING USED WHILE MOUNTED. IF THE PRESSURE IS TOO MUCH THE HORSE COULD PANIC OR FIGHT THE PRESSURE. Not To Be Used By Inexperienced Riders.***

## Vienna Side Reins

### 884 DELUXE VIENNA SLIDING SIDE REINS FULLY ADJUSTABLE WITH SNAPS FOR EASY ON AND OFF

- 884 B Black
- 884 H Havana

This device goes by various names; Vienna Side Reins, Sliding Side Reins and Vienna Lunge Reins. It is used to encourage the horse to learn to balance himself, round his back and carry himself properly on the bit. The action of the reins is similar to that of the German Martingale in that the horse adjusts himself to the pressure of the reins without the rider pulling or a regular side rein that is stationary. It attaches to the girth with a snap or a girth loop, runs up through the bit and hooks to the rings on a surcingle or saddle.

**TO BE USED WHEN LUNGING THE HORSE TO DEVELOP BALANCE AND FLEXION**

## Changeable Ring Running Martingale

**899 H DELUXE HAVANA DRAW REIN MARTINGALE HAS RING STRAPS WITH SCISSOR SNAPS THAT CAN BE SNAPPED TO ANY OF THREE POSITIONS. BRASS HARDWARE Havana Only**

Designed for the person who rides many horses in various stages of training or with the end result being different levels of head position. Breed, riding discipline and conformation dictate where the rider wants the head to be carried and this device makes it easy to switch between ring positions for different head sets.

## 10 Ring Multiple Use Martingale

**898 H HAVANA BRIDLE LEATHER 10 RING TRAINING MARTINGALE WITH BRASS HARDWARE Havana Only**

Different breeds, riding disciplines and stages of training have varying standards on how the horse should carry his head. Conformation of the horse and how the neck is set on the shoulder also plays an important part in how a horse can carry his head. The rings on the side are used to run the reins through from the bit to the rider's hands. This gives leverage to set the horse's head and the level of the rings that are used determines the placement of the head ... the lower the rings used, the lower and more flexed the head will be.

THESE TWO ITEMS ARE ORIGINALLY SIZED FOR ARABIANS BUT WITH THE ADJUSTABILITY WILL WORK FOR ANY HORSE.

# STIRRUP LEATHERS

Until we came up with a strong, lined leather we did not think that half holes were safe. We are now using our 1" Stitched Leather with a Nylon Center and a Supple Leather Lining. This makes three layers that are stitched together for strength and the nylon center eliminates stretch.

NOW THE HALF HOLES DO NOT COMPROMISE THE STRENGTH OF THE LEATHER AND THE LEATHER WILL RETAIN ITS SHAPE WITHOUT STRETCHING.

# TRADITIONAL STRAIGHT CHEEK WESTERN SHOW HALTERS IN 5 COLORS

These halter blanks are part of our 'TRIM YOUR OWN' series of English Bridle Leather Straps for your customers to use as is or trim with silver of their own choice. This line consists of Halters, Headstalls, Reins and Breast Straps that have the buckles attached with Chicago Screws so they can be changed to Silver Buckles.

All of these straps are made from top quality English Bridle Leather that is vegetable tanned in the U.S.A and will maintain its classy look for years to come. Most other show halters are made with leather that is dyed and sprayed where ours is drum dyed in the tanning process and at the same time is stuffed with oils and waxes so that it maintains its color and suppleness. None of our leather is sprayed so to keep it looking nice we recommend that a leather cleaner-conditioner be used.

## OILING THE LEATHER IS NOT RECOMMENDED

# TORY'S CONGRESS STYLE SHOW HALTERS

A Congress Style Halter has cheeks and a nose that taper at each end. This gives more area of silver but it also gives a more rounded effect to the jowl and the nose which fits well with the shape of the horse's face and doesn't tend to make the head look longer as the straight cheek can.

These halter blanks are part of our 'TRIM YOUR OWN' series of English Bridle Leather Straps for your customers to use as is or trim with silver of their own choice. This line consists of Halters, Headstalls, Reins and Breast Straps that have the buckles attached with Chicago Screws so they can be changed to Silver Buckles.

## Made in the U.S.A. from American Leather

All of our straps are made in America by American Craftsmen with great attention paid to the design, construction and detail of each piece. Because the items we manufacture are used on horses the safety, strength and durability are important factors. We use Environmentally Friendly Leather that is tanned in vegetable extracts for long lasting character, drum dyed to obtain deep, uniform color and hot stuffed with the right combination of oil, wax and grease to produce leathers that retain their color and enduring supple qualities. To clean our leather you can use cleaners and conditioners and won't need to oil them to keep them soft.

Along with our wide selection of basic English and Western Tack, we have a large selection of Training Equipment that is attractive, functional, long lasting and comes with an Instruction Tag. Tory is one of the leading strap manufacturers because of the look and feel of the leather.
